Amplex Internet

Manager Portal: Version 37.1.0

You will be prompted to create a new password and a Voicemail PIN code. Your password will be used to log into <https://phone.amplex.net> and view your call history, check your voicemail on the computer and change other advanced phone service settings.

The password must contain a minimum of one capital, one number and be 8 or more characters in length.

Your pin code will be used to access your voicemail from your phone. The pin code must be 4 or more characters and simple pass codes such as 1234 and repeating numbers are forbidden.
